Lily,

Just the revised table for Trench Units is attached including % of total as you requested.

Hi Lily,

Unfortunately our email security strips anything other than text. Can you please send what you copied and pasted as an attachment in Word?

I'm not sure if we have a complete summary table for Building Site Survey units for all parcels. If I have one, I'll send it over.

Thanks.

You asked me to give the number of Phase 1 survey units that the VSP model says is needed in other parcels for 95% confidence that 95% of survey units are not contaminated if the Phase 1 survey units are twice as likely to be contaminated as a unit chosen randomly. For trench units, I used the chart below, cut & pasted from the attached ppt. Do you also have a similar chart showing Building Site Survey units by parcel?

Thanks!
